Рисунки / В. Сотник — «Издательские решения»,

ISBN 978-5-44-968955-9

В 80-90-х годах прошлого столетия я много рисовал — спонтанно, взрывчато, одержимо. Как память о тех состояниях, по накалу близких к безумию, — данный сборник избранных рисунков. Кому-то, возможно, они будут интересны.

## «Мне ближе графика чернеющих деревьев...»

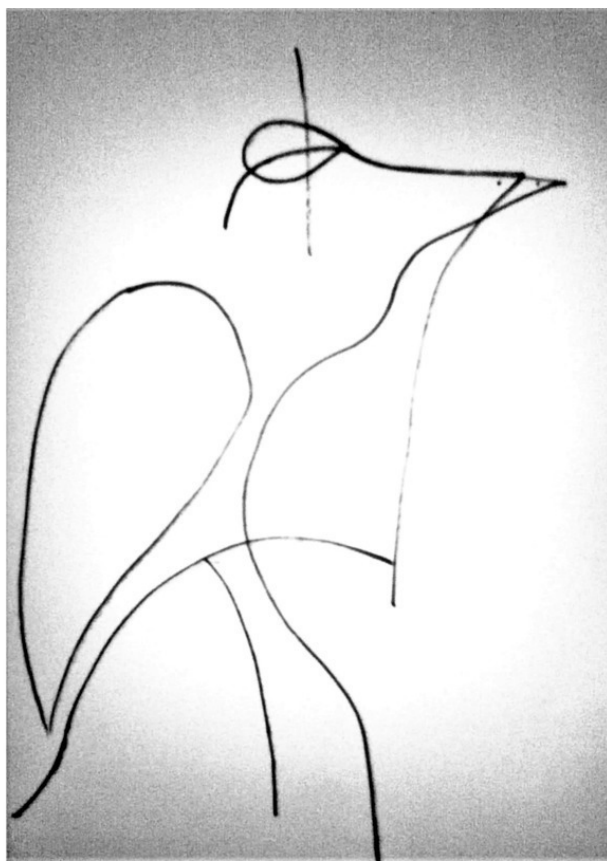

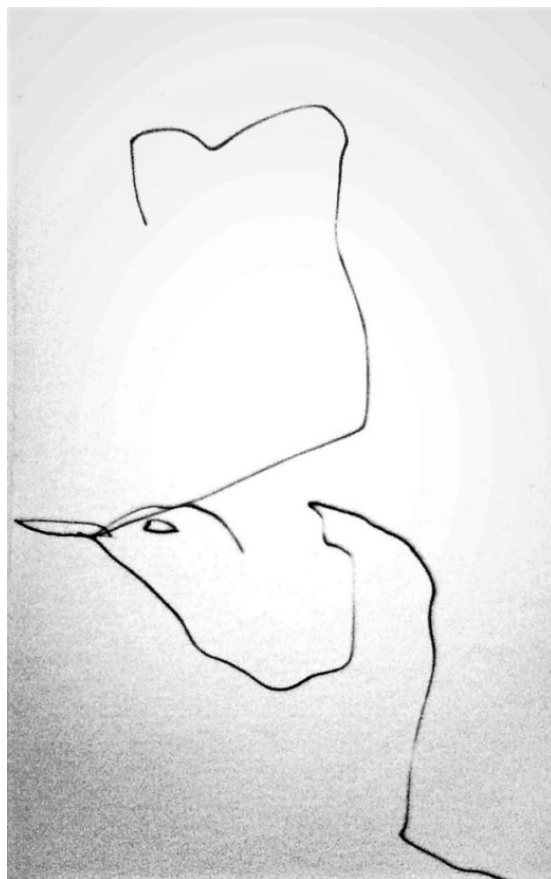

Мне ближе графика чернеющих деревьев  
Их лики строги как иконы  
Безмолвный гармоничный напев  
Струится в оголенных кронах

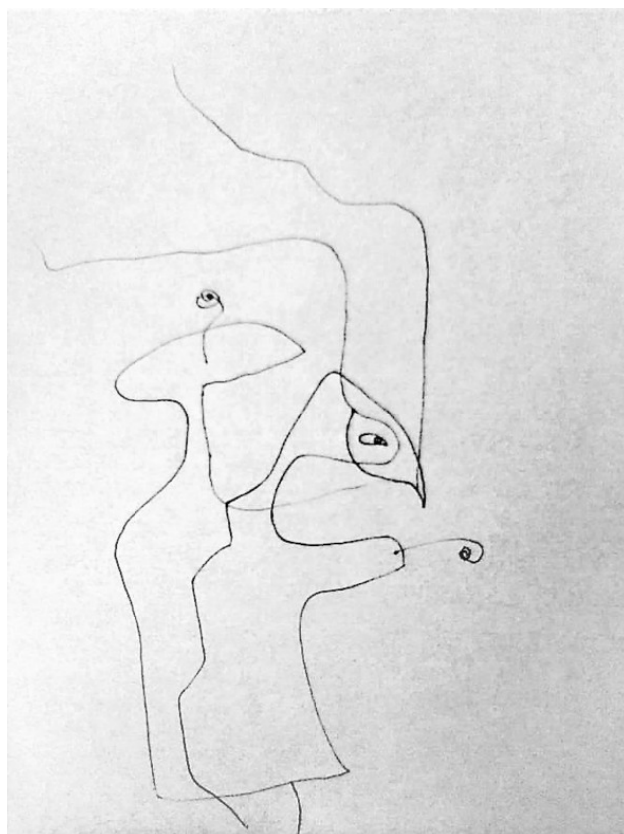

В них холод огненной стези  
Смирение сливанное с отвагой  
Сквозь смерть сумеют добрести  
К себе с бесстрашием варяга...
