Аннотация

В 80-90-х годах прошлого столетия я много рисовал – спонтанно, взрывчато, одержимо. Как память о тех состояниях, по накалу близких к безумию, – данный сборник избранных рисунков. Кому-то, возможно, они будут интересны.

«Мне ближе графика чернеющих деревьев...»

Мне ближе графика чернеющих деревьев
Их лики строги как иконы
Безмолвный гармонический напев
Струится в оголенных кронах

В них холод огненной стези
Смирение слиянное с отвагой
Сквозь смерть сумеют добрести
К себе с бесстрашием варяга...
